**Claim Amendment for CIP 1  
(SKGF 1752.0010001)**

1. (Currently Amended) A method of distributing a video-stream production from a source to at least one destination, ~~said video stream resulting from a production process~~, comprising the steps of:

\_\_\_\_\_ (a) ~~enabling creation of a script containing at least one segment delimiter to identify a specific segment within the video stream;~~

\_\_\_\_\_ (b) ~~receiving a request to distribute one or more video segments of the video stream to said at least one destination;~~

\_\_\_\_\_ (c) ~~defining a set of commands that, when executed, distribute said one or more video segments and data related to said one or more video segments to said at least one destination; and~~

\_\_\_\_\_ (d) ~~executing said set of commands to distribute said one or more video segments and said related data to said at least one destination.~~

(a) executing a set of commands to automatically control a plurality of production devices to thereby produce a show, wherein said set of commands include at least one segment delimiter command, wherein step (a) comprises the step of executing said at least one segment delimiter command in the course of executing said set of commands, wherein execution of said at least one segment delimiter command results in identifying and categorizing a specific segment within said show and associating content related to said segment;

(b) receiving a request to distribute one or more segments of said show to the at least one destination; and

(c) distributing said one or more segments with the associated data related to said one or more segments to the at least one destination.
